Introduction

Thank you for purchasing the LINDY Wireless Micro Keyboard & Mouse. The Wireless Keyboard & Mouse is designed to be used with your home theatre computer (HTPC), to give you a convenient way to control your PC and access to key functions.

Features

- Compact wireless keyboard with integrated optical mouse
- Full 56 Key layout, with multimedia controls
- Optical mouse sensor with 400dpi resolution
- Swipe feature for speedy scrolling (Windows only)
- RF 2.4GHz Wireless Technology, range up to 10m
- USB RF Nano Dongle; ejection turns device on, replacing turns device off
- Requires 2 x AAA battery (supplied)
- Battery life up to 3 months
- Compatible with USB enabled Operating Systems

Package Contents

- LINDY Wireless Micro Keyboard & Mouse
- USB RF Nano Dongle
- AAA Battery x 2
- This manual

Installation

1. Slide the battery cover off as shown and insert the supplied batteries and then replace the battery cover.
2. Now slide the power switch to On, this will power on the Micro Keyboard & Mouse and eject the USB RF dongle.
3. Insert the USB RF dongle into an available USB port on your computer.
4. The computer will detect the Micro Keyboard & Mouse and automatically install the required drivers.
5. The Micro Keyboard & Mouse will automatically pair with the USB RF dongle, this may take a few seconds. Once complete the Micro Keyboard & Mouse is ready to use.

Operation

1. The Micro Keyboard & Mouse features a full 56 key layout, including a function (FN) key which can be used to access additional keys such as F0-F9 and Multimedia Control.

2. To move the mouse simply move your finger across the optical sensor
3. To complete a left mouse click simply press the mouse sensor in
4. To complete a right mouse click, press the mouse sensor in whilst holding the FN key

In addition to standard functions, the Micro Keyboard & Mouse also has a Swipe function. The Swipe function can be used to scroll through a document or webpage (vertically), or through a slideshow (horizontally) by holding the FN key and swiping across the optical sensor.

FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced technician for help

You are cautioned that changes or modification not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

CE Certification

This equipment complies with the requirements relating to electromagnetic compatibility, EN 55024 and EN55022 class A for ITE, EN61000-3-2/-3 the essential protection requirement of Council Directive 89/336/EEC on the approximation of the laws of the Member States relating to electromagnetic compatibility.

WEEE (Waste of Electrical and Electronic Equipment), Recycling of Electronic Products

In 2006 the European Union introduced regulations (WEEE) for the collection and recycling of all waste electrical and electronic equipment. It is no longer allowable to simply throw away electrical and electronic equipment. Instead, these products must enter the recycling process.

Each individual EU member state has implemented the WEEE regulations into national law in slightly different ways. Please follow your national law when you want to dispose of any electrical or electronic products. More details can be obtained from your national WEEE recycling agency.

Deutsch

Die Europäische Union hat mit der WEEE Richtlinie umfassende Regelungen für die Verschrottung und das Recycling von Elektro- und Elektronikprodukten geschaffen. Diese wurden von der Bundesregierung im Elektro- und Elektronikgerätegesetz – ElektroG in deutsches Recht umgesetzt. Dieses Gesetz verbietet vom 24. März 2006 an das Entsorgen von entsprechenden, auch alten, Elektro- und Elektronikgeräten über die Hausmülltonne! Diese Geräte müssen den lokalen Sammelsystemen bzw. örtlichen Sammelstellen zugeführt werden! Dort werden sie kostenlos entgegen genommen. Die Kosten für den weiteren Recyclingprozess übernimmt die Gesamtheit der Gerätehersteller.

Français

En 2006, l'union Européenne a introduit la nouvelle réglementation (DEEE) pour le recyclage de tout équipement électrique et électronique.

Chaque Etat membre de l' Union Européenne a mis en application la nouvelle réglementation DEEE de manières légèrement différentes. Veuillez suivre le décret d'application correspondant à l'élimination des déchets électriques ou électroniques de votre pays.

Italiano

Nel 2006 l'unione europea ha introdotto regolamentazioni (WEEE) per la raccolta e il riciclo di apparecchi elettrici ed elettronici. Non è più consentito semplicemente gettare queste apparecchiature, devono essere riciclate. Ogni stato membro dell' EU ha tramutato le direttive WEEE in leggi statali in varie misure. Fare riferimento alle leggi del proprio Stato quando si dispone di un apparecchio elettrico o elettronico.

Per ulteriori dettagli fare riferimento alla direttiva WEEE sul riciclaggio del proprio Stato.
