

## Remote Receiver Unit

Connect your microphone to the 'Mic in' socket; connect your speakers to the 'Audio Out' socket

The Power LED will illuminate when the power supply is connected to the Transmitter unit.

Connect the CAT5 cable to the RJ-45 port

## Adjusting Microphone Gain

To improve the microphone signal over longer distances, the Remote Receiver unit provides an adjustable gain control

Use a Philips screwdriver to adjust the microphone gain and boost the signal

## WEEE (Waste of Electrical and Electronic Equipment), Recycling of Electronic Products

### United Kingdom

In 2006 the European Union introduced regulations (WEEE) for the collection and recycling of all waste electrical and electronic equipment. It is no longer allowable to simply throw away electrical and electronic equipment. Instead, these products must enter the recycling process.

Each individual EU member state has implemented the WEEE regulations into national law in slightly different ways. Please follow your national law when you want to dispose of any electrical or electronic products.

More details can be obtained from your national WEEE recycling agency.

### Germany / Deutschland

Die Europäische Union hat mit der WEEE Direktive umfassende Regelungen für die Verschrottung und das Recycling von Elektro- und Elektronikprodukten geschaffen. Diese wurden von der Bundesregierung im Elektro- und Elektronikgerätegesetz – ElektroG in deutsches Recht umgesetzt.

Dieses Gesetz verbietet vom 24. März 2006 an das Entsorgen von entsprechenden, auch alten, Elektro- und Elektronikgeräten über die Hausmülltonne! Diese Geräte müssen den lokalen Sammelsystemen bzw. örtlichen Sammelstellen zugeführt werden! Dort werden sie kostenlos entgegen genommen. Die Kosten für den weiteren Recyclingprozess übernimmt die Gesamtheit der Gerätehersteller.

### France

En 2006, l'union Européenne a introduit la nouvelle réglementation (WEEE) pour le recyclage de tout équipement électrique et électronique.

Chaque Etat membre de l' Union Européenne a mis en application la nouvelle réglementation WEEE de manières légèrement différentes. Veuillez suivre le décret d'application correspondant à l'élimination des déchets électriques ou électroniques de votre pays.

### Italy

Nel 2006 l'unione europea ha introdotto regolamentazioni (WEEE) per la raccolta e il riciclo di apparecchi elettrici ed elettronici. Non è più consentito semplicemente gettare queste apparecchiature, devono essere riciclate.

Ogni stato membro dell' EU ha tramutato le direttive WEEE in leggi statali in varie misure. Fare riferimento alle leggi del proprio Stato quando si dispone di un apparecchio elettrico o elettronico.

Per ulteriori dettagli fare riferimento alla direttiva WEEE sul riciclaggio del proprio Stato.

## CE Statement

This device complies with the European Regulations for Electromagnetic Compatibility (EMC) of the European Union and it is equipped with the CE mark. This unit has to be used with high quality shielded connection cables. Only if these high quality shielded cables are used can it be sure that the EMC compatibility is not adversely influenced

Shielded cables must be used with this equipment to maintain compliance with radio frequency energy emission regulations and ensure a suitably high level of immunity to electromagnetic disturbances.

## FCC Statement

### FCC Warning

This equipment has been tested and found to comply with the limits for a Class B Digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced technician for help

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

LINDY No. 32536

1<sup>st</sup> Edition June 2006

www.lindy.com

#### Introduction

Thank you for purchasing the LINDY CAT5 Audio Extender. With this device you can locate your microphone and stereo speakers or headphones up to 300m away from your computer or other audio device using low cost CAT5 or higher network cable (not included).

The CAT5 Audio Extender consists of a **Transmitter** (local) and a **Receiver** (remote) unit. The **Local** unit connects to your computer/audio device; the **Remote** unit connects to your microphone and speakers or headphones.

#### Package Contents

- CAT5 Audio Extender, Local Transmitter Unit
- CAT5 Audio Extender, Remote Receiver Unit
- 1.8m audio cable for connecting to the computer
- 9V DC, 300mA Power Supply
- This manual

#### Installation Example

LINDY No. 32536

[www.lindy.com](http://www.lindy.com)

#### Product Connections & Installation

Make the following connections BEFORE powering up your computer and speakers.

#### Local Transmitter Unit

Using the supplied audio cable, connect the microphone input from your computer to the 'Mic Out' socket; connect the audio output from your computer to the 'Audio In' socket.

Connect the CAT5 cable to this RJ-45 port

Connect the power supply to this socket
